

Belleville *Beer & Wine*

Minimum Aging

Successfully aging wine depends on many factors including sterilizing procedures, corks, temperature, humidity, light etc. It is impossible to give an absolute accurate time frame due to all those variables. Please use the following information as a guide for aging our wines.

Note: the aging times are based on the recommended addition of a ¼ teaspoon of Potassium Metabisulphite.

MINIMUM AGING (MONTHS)

Niagara Mist	ready immediately	
California Connoisseur	Whites: 1	Reds: 2
